

Hello Sir/Ma'am,

Rejoice Health Foundation as the name says aims at bringing joy and health through its various programs aimed at propagating healthcare, mental wellness, preventive medicine and nutrition education. In today's scenario where world is flooded with zillions of communicable and non-communicable diseases. It is RHF which is untiringly working to create awareness and knowledge in the community about all facets of health and co-related fields.

RHF will be the building block connecting communities, doctors, like minded scientists, innovators and students by imparting extensive knowledge, developing skill and enhancing curiosity to carry out researches.

It focuses on bringing holistic healing and make healthcare a sustainable model. It promotes and works for AYUSH, our ancient system which is the most sustainable of all to cure, prevent and protect mankind. RHF is a goal oriented organization which clearly follows United Nation 17 sustainable development goals. RHF has it's extensions in Japan, UAE and Hungary. It promises to organize intellectual programs and conferences in different parts of world connecting the members of RHF and spreading awareness worldwide. RHF will be conducting it's research oriented disease and disability awareness projects with governmental organizations as its support.

With great pride I want to share that **RHF is launching a global campaign for creating awareness** for Autism, learning disabilities, ADHD, Down syndrome, PDD-NOS and other disabilities prevalent all over the world. It's our prime motto to educate the masses about these **SPECIALLY-ABLED** creations of GOD. We want to work extensively towards their inclusion and integration into society. It's our endeavor to start at school level and also provide a support system for CWSN (Children with Special Needs). A major challenge is sensitizing society and empowering the children with special needs. We want them to experience life to the fullest and create a sustainable model for their acceptance and integration into communities.

- Students will get **opportunity to work with CWSN** as part of our internship program in various centers.
- RHF and Amity University will conduct **programs, conferences and CME's** to create awareness for the same.
- To launch awareness **campaigns on radio, TV, Newspapers and social media** platforms.
- RHF & Amity University jointly plan to extend and expand its association in conducting **workshops, symposium, research programs** in many countries, institutions and universities all over the world.
- To bring together Heads and representatives of all the countries to work jointly for this noble cause.

As part of this venture, we have started our first Centre at **SD Public School**, Pitampura, and New Delhi. The school has a program for children with special needs and is providing inclusive setup to more than 100 students. With our collaboration, they now have in-house psychologist, homeopath doctor, occupational therapist and speech therapist to support the children with special needs. There are customized IEP (Individualized Education Program) for each child. Continuous awareness programs and workshops are conducted to sensitize teachers, support staff and other children of the school to accept and include children with special needs. The school has a high rate of success in terms of inclusion and integration. We plan to parse this model to other schools and encourage successful inclusion of children with special needs in schools.

RHF has a dedicated Special Needs and Rehabilitation Committee to carry forward this endeavor. This committee is responsible for all networking, awareness campaigns and bringing the above mentioned goals to fruition. We would like to bring about sustainable change in the community and society towards CWSN. We will work towards development of sustainable education institutions which will then help to mainstream these children to the best of their abilities and make them productive citizens of our society. This team will be responsible for raising funds which will be deployed for betterment of these children and to fund new research and studies.

Our Patron

Dr. W. Selvamurthy

Our Core Team:-

Dr. Preeti Verma
Founder RHF

Dr. Naval Kumar Verma
President, RHF

Dr. Akshay Kumar Dogra
Regional Head (HP)

Special Needs and Rehabilitation Committee

Ms. Neha Verma

Dr. Beenu Saini

Dr. Arti Goyal Gupta

International Heads

- Dr. Hisato Kohyama – Japan
- Dr. Anupriya Batra – UAE

International Scientific Committee

- Dr. W. Selvamurthy
- Dr. Kattapiri (Japan)
- Dr. Moutrouie (Japan) – check spelling
- Dr. Andrea (Hungary)

Regional Heads

- Dr. Akshay Kumar Dogra – Himachal Pradesh
- Dr. Vedati Packiam-- Maharashtra
- Dr. Sheetal Bijlani – Gujarat
- Dr. Jeevanjyot Kaur– Punjab
- Dr. Kamal Bhurani -- Rajasthan

We have collaboration with the following:-

1. Amity University
2. SHE Foundation

We look forward to a fruitful association, synergy and teamwork for this and all future projects. We thank you for your time and cooperation.

Thanking you.

Your sincerely,

Dr. Naval Kumar Verma & RHF team
